Experience

Lead Developer, Toborlife AI [April, 2025 - Present]:

- Toborlife AI is a Silicon Valley robotics company and authorized Unitree distributor, selling and supporting quadruped and humanoid robots for schools, researchers and businesses. As the lead developer my duty is:
 - Own the company's business websites end to end — develop, manage & maintain the WordPress sites that drive sales & leads
 - Ensure top-notch SEO (on-page, technical & performance optimization) to grow organic traffic
 - Plan site architecture, product pages & new feature rollouts
 - Lead & manage the development team; review code & mentor developers
 - Maintain & bug fix existing applications

Software Engineer, REALTY.COM, LLC. [April, 2022 - May, 2025]:

- Realty.com has 1,000,000+ homes for sale listings in the United States. Whether you are looking to buy, sell or rent a home, Realty.com is the source for all of your real estate needs. As a software engineer (full stack) my duty was:
 - Develop & maintain a high-traffic consumer business website with 1,000,000+ live listings
 - Design frontend from scratch following the design templates (Figma, XD)
 - Develop back-end & REST APIs powering the website & mobile app
 - Develop & maintain the mobile app
 - Design application architecture & operation flowcharts; write unit tests
 - Maintain & bug fix the existing application

Software Engineer, EXPRESS SYSTEMS & PARTS NETWORK INC. [November, 2021 - March, 2025]:

- Express Systems Network is a company that sells and provides medical equipment services. As a software engineer (full stack) my duty was:
 - Develop e-commerce sites the business sells medical equipment through
 - Design frontend from scratch following the design templates (Figma, XD)
 - Develop back-end & REST APIs for the applications
 - Design application architecture & operation flowcharts
 - Develop the mobile app; maintain & bug fix existing applications

Software Engineer, TF INTERNET ApS [June, 2019 - November,2021]:

- TF INTERNET ApS is a Denmark based IT firm where they develop both client-based & in-house software products. As a software engineer (full stack) my duty was:
 - Develop business websites & e-commerce sites for Danish clients
 - Design frontend from scratch following the design templates (Figma, XD)
 - Develop back-end & REST APIs for the applications
 - Design application architecture & operation flowcharts
 - Maintain & bug fix existing applications

Junior Software Engineer, LinkingCC [January 02, 2018 - June 30, 2019]:

- LinkingCC is a reputed software company located at Jessore. I was a junior software engineer at LinkingCC and contributed to 20+ live projects:
 - Develop web-based applications & business websites for clients
 - Bug fix existing applications

Projects & Portfolio

- **Toborlife AI** — Business website for a Silicon Valley robotics company & authorized Unitree distributor, one of the fastest-growing robot sellers in the US. WordPress build I lead, develop & maintain, with product pages, lead generation & full SEO / performance optimization.
- **Realty.com** — High-traffic US real estate platform with 1,000,000+ live listings, recognized among America's fastest-growing companies. Worked full stack: frontend, back-end & REST APIs powering the website & mobile apps.
- **Realty.com Mobile Apps** — Property search & agent portal apps I built for Realty.com. iOS: Realty.com, Realty Portal. Android: Realty.com.
- **Destination Mah Jongg** — WordPress business website I built for a US events company running Mah Jongg tournaments, cruises & retreats, with event registration & SEO — generated \$30,000+ in sales within 24 hours of launch.
